**Empowering Women.  
Transforming Futures.**

Live & Learn helps women move from hardship to stability through education, career support, and community connection. Our three-pillar model — inner strength, financial stability, and social connection — empowers women to create lasting change. Partnering with us means investing in women who uplift their families and strengthen the communities we all share.

## VISION

A future where every Arizona woman has the power, education, and opportunity to shape her own story — on her own terms.

## MISSION

To empower Arizona women by providing access to education, resources, and opportunities that foster financial independence, personal growth, and long-term stability — breaking generational barriers and building pathways to a future of choice and possibility.

## EVENT DESCRIPTION

Join businesses and community leaders for an inspiring breakfast celebrating the women whose lives have been transformed through Live & Learn.

Funds raised directly support education support, career training, and wrap-around care for women rebuilding their lives after hardship and trauma — helping them achieve lasting stability and independence.
